Dear Mr. Mosteller:

The Department of Toxic Substances Control (DTSC) received the Revisions to the Tables and Figures of the Lots 1 and 2 FSAP, and Lot 3 FSAP, Former Zeneca Facility, Campus Bay Project, dated March 2, 2006. The document was prepared by LFR Levine-Fricke in response to comments provided in a letter dated February 21, 2006 and discussion held during a meeting held on February 16, 2006. DTSC has reviewed the revised document and finds that the document adequately addresses the comments previously provided to you. While DTSC's Human and Ecological Risk Division (HERD) provided comments to the Lot 3 FSAP, additional comments to the Current Conditions Summary Report were provided in a letter dated March 7, 2006. As discussed during the March 7 meeting, any additional field work identified for Lot 3 will be incorporated into the current or subsequent field sampling events after approval by DTSC.

If you have any questions regarding this letter, please call me at (510) 540-3843 or Lynn Nakashima of my staff at (510) 540-3839.

Sincerely,

Barbara J. Cook, P.E., Chief  
Northern California – Coastal Cleanup  
Operations Branch
